INTERCONTINENTAL®
DANANG SUN PENINSULA RESORT

Pioneering Ultimate Luxury

At InterContinental Danang Sun Peninsula Resort, every aspect of the guest experience should be of the highest quality. The resort's discerning clientele expects the very best, from top brands and the finest cuisine to mesmerizing views and most memorable moments. This is the concept of "Ultimate Luxury".

Nestled in 39 hectares of lush jungle across four idyllic levels – Heaven, Sky, Earth and Sea – all connected by a funicular railway and cascading down to a private bay with a 700-metre-long sandy beach, InterContinental Danang Sun Peninsula Resort is an unparalleled place to stay.

As a Bill Bensley-designed resort, the iconic architecture and interior design create an instant impression. From the impactful black-and-white color scheme, which reflects the spirit of yin and yang, to authentic Vietnamese shapes and motifs, this resort never fails to inspire the imagination.

Each luxurious accommodation promises extensive indoor and outdoor living space, with ocean views from every room, suite or villa, along with dedicated areas for alfresco dining, spa-inspired bathrooms, and plunge pools or full-sized infinity pools in the villas and residences. Trained Villa Hosts are on-hand 24 hours a day to take care of every request and ensure unforgettable stays.

The commitment to “Ultimate Luxury” extends even beyond the resort; three VIP lounges can be found at Danang International Airport, allowing domestic and international guests to enjoy the InterContinental experience as soon as they land, or to extend it a little longer before departure. At the resort, the InterContinental Club Lounge is elevated on the resort’s “Heaven” level, providing an exclusive enclave to unwind with panoramic views of the rainforest and bay. Club benefits include complimentary breakfast, all-day refreshments, afternoon tea, evening cocktails, laundry and butler services.

Every traveler can also take advantage of bespoke activities, from cooking classes and wildlife workshops to jungle treks and cultural encounters. With refined dining by a three-starred Michelin chef at La Maison 1888, or on the silky-soft sand at Barefoot, the idyllic oceanfront venue, gastronomic excellence is guaranteed.

With over 2,100m² of event space, including indoor and outdoor venues, the resort sets the stage for world-class conferences and one-of-a-kind weddings. Perched at the top of the resort, The Summit is a meeting venue where important conferences are staged and where delegates network on breezy terraces. Alternatively, the beaches, gardens, terraces and private patios can host every occasion from personalized proposals to lavish parties, barbecue dinners, team-building weekends and grand gala events.

Naturally, as a member of InterContinental Hotels Group (IHG), the resort adheres to the IHG Clean Promise Program, which upholds the highest standards of health and safety.

All of these offerings and more translate into the “Ultimate Luxury” concept at InterContinental Danang Sun Peninsula Resort, where only the best is good enough.
